Activity 1 – UI Analysis

1. WhatsApp

Navigation

WhatsApp provides a simple bottom navigation bar that allows users to switch between Chats, Updates, Communities, and Calls easily.

Layout

The interface is clean and organized. Chats are displayed in a list format, making conversations easy to access.

Typography

WhatsApp uses a clear and readable font. Chat names are displayed prominently, while message previews use a smaller font size.

Colors

The application mainly uses green and white colors, creating a consistent and recognizable brand identity.

User Experience

WhatsApp offers a smooth and intuitive user experience. Users can quickly navigate and perform actions without confusion.

2. Instagram

Navigation

Instagram uses a bottom navigation bar that provides access to Home, Search, Reels, Notifications, and Profile sections.

Layout

The platform focuses on visual content. Images and videos are displayed prominently with a clean arrangement.

Typography

Instagram uses modern and readable fonts. Usernames, captions, and headings are clearly differentiated.

Colors

The application primarily uses a white background with colorful content, creating an attractive visual experience.

User Experience

Instagram provides smooth navigation and content discovery. Users can easily browse posts, reels, and profiles.

3. YouTube

Navigation

YouTube provides a bottom navigation bar with sections such as Home, Shorts, Subscriptions, and Profile. The search feature is easily accessible.

Layout

Video thumbnails are displayed in an organized manner, allowing users to quickly find content of interest.

Typography

YouTube uses clear fonts with varying sizes to establish visual hierarchy and improve readability.

Colors

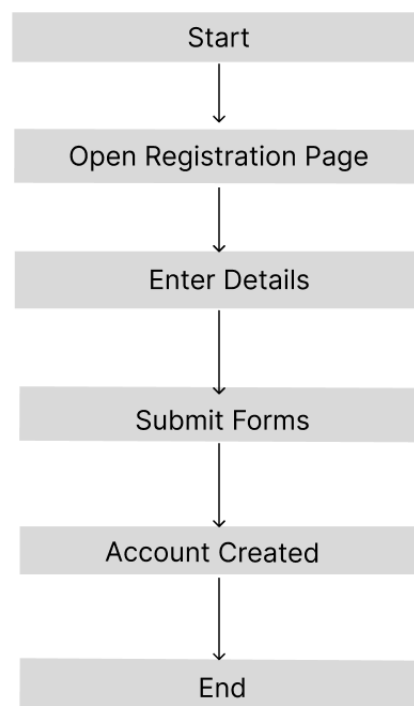

The platform primarily uses white, black, and red colors, maintaining strong brand consistency.

User Experience

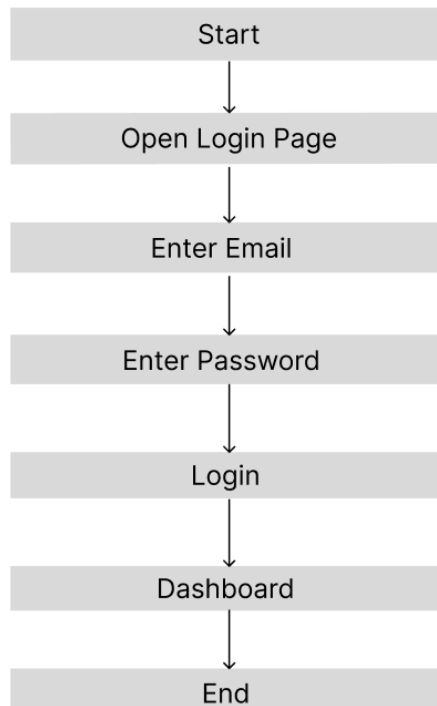

YouTube offers an efficient and user-friendly experience. Searching, watching, and discovering videos is straightforward and convenient.
